SCARCITY OF FARM HELP BEING FELT

Applications Pouring in From
Manitoba Points to Immig-
ration Offices.

Winnipeg, Aug. 12.—Despite the fact that in some regions of Manitoba the crops are not so favorable as in other years, the number of applications which are being received for farm help at the provincial immigration offices are daily increasing, and the requests are already as great as they have ever been at a similar period, either last year or the year before. The same shortage of farm help is as apparent this year as previously, and even though the applications for assistance from rural points will be much greater, nevertheless at the present time it is with the utmost difficulty that the present needs are satisfied. While it is yet impossible to say how many will be required to harvest this year's crop, it is felt that the number of men who will be needed to aid in the work will be as great as ever, as the crop situation in Saskatchewan and Alberta is reported to be excellent.

Requests are coming from the far west for help, and although many of the points have made special arrangements with the C.P.R. in order to carry out the harvest, the help is not present at the offices of the provincial immigration building, and it is estimated that for 150 men to be sent immediately, and there are no available men to fill the vacancies.

Death of Railroad Laborer.
Officials of the C.P.R. state that the difficulty of obtaining employees in certain branches of the work has increased greatly with the cost of recruits. At this particular time of the year the loss of men is increased, and it is sometimes with the utmost difficulty that the men can be secured. At the present time the steady demand in the west for men has increased, and it is sometimes with the utmost difficulty that the men can be secured. At the present time the steady demand in the west for men has increased, and it is sometimes with the utmost difficulty that the men can be secured.

Not only is it with this branch of the work that this shortage of help is felt, but the same is said to apply to the necessary men for the installation of a great number of additional trains, and men to operate from the east corroborate this statement, where it is said the companies' laborers and operators are hard to obtain. The rapid rate of expansion of the country is in course the cause of the reported deaths of men. Every line of road operating in the west is laying out new stations annually, and hundreds of railway shipping men are being added every year, for which extra men are required.

APPLICATION FAILS.

Judge Ryan's Ruling in the Nepean case, Man., Aug. 12.—An important case was decided here today. Application had been made to put on the voter list the names of the keepers of an hotel in Nepean, who were claimed to be residents of the hotel in Nepean.

Nepean, Man., Aug. 12.—An important case was decided here today. Application had been made to put on the voter list the names of the keepers of an hotel in Nepean, who were claimed to be residents of the hotel in Nepean. The case was decided in favor of the application, and the names were put on the voter list.

SAKATCHEWAN HARVEST.

Will Require 100,000 Imported Laborers To Assist, in Gathering it.

Regina, Aug. 12.—The Department of Agriculture estimates that between 7,000 and 8,000 imported laborers will be required to harvest wheat in this province. This number is not much in excess of last year's requirements, but it is a large number, and it is estimated that it will be necessary to import 100,000 laborers to assist in the harvest.

FEARS ENTERTAINED.

For Safety of Steamer With Many Wives.

Winnipeg, Man., Aug. 12.—There is great anxiety in the city as to the whereabouts of the steamer "Kensie" which was from Kenora, Ontario, on Saturday night, and which had a great deal of cargo on board. The steamer was reported to be in the Gulf of St. Lawrence, and it is feared that it may have been wrecked.

THE WESTERN FLOOD.

Paisley, Ont., Aug. 12.—No other part of Ontario has the "Western Flood" greater than this, and it is spreading throughout the counties of Bruce and Huron. The water is rising rapidly, and it is feared that it may cause great damage to the crops and the property of the people.

JOHN POLLEY, ILL.

Member of Well Known Railway Contracting Firm in Serious Condition.

St. Paul, Minn., Aug. 12.—John Polley, a member of the firm of Polley, Minn., railroad contractor, and of the wholesale grocery firm of Polley, Minn., is seriously ill at St. Joseph's hospital. He went to the hospital three weeks ago, when he was able to sit up at times. During the day, his condition is a special kind which makes it hard to tell just what progress has been made toward recovery.

Mr. Polley's attack of illness came twelve years ago and was laid up for some time. He recovered, however, and since then he has been in good health until about a year ago, when he again was laid up for some time. He came to St. Paul three weeks ago and was treated for a time by a New York specialist. While his condition is serious, it is not yet known whether he will be able to get up in a short time, and no one has any definite hopes.

WILL MEET EVERY COAL DEMAND

A.C. Flumerfelt Says There Should be No Coal Shortage Next Winter.

Vancouver, Aug. 12.—A. C. Flumerfelt, who was responsible for the development of the coal mines of British Columbia, and who is now in charge of the coal mines of the province, says that there should be no coal shortage next winter. He says that the coal mines of the province are now producing more coal than they have ever before, and that the coal mines of the province are now producing more coal than they have ever before.

NEW YORK STOCKS.

Hill and Harrison Stocks Decline—Continued the Reflux of Money Stringency.

New York, Aug. 12.—Last week's liquidating movement in the stock market was resumed at the very opening of the business today, and gave for few rallies were manifested throughout the session. Securities came out in enormous volume for the first ten minutes, when the situation was one of utter demoralization. The greatest losses were recorded for the Hill and Harrison stocks, but a number of the less conspicuous issues were thrown over at a severe discount. The break was checked before the end of the first hour, but in the afternoon, prices went still lower in the Sept. delivery. Other options declined almost to the same extent. The closed week and close to the lowest point.

September opened 34 to 34 1/2 cents, the lower at 34 1/2 to 34 3/4, and closed at 34 1/2. The most active movement was in the Sept. delivery of the wheat market, which was sold at 34 1/2 to 34 3/4, and closed at 34 1/2.

The corn market displayed surprising steadiness in view of the demoralized condition of the wheat market. Some damage reports were received from Kansas where the crop is said to be better on an account of the excessive heat. Prices were unchanged.

Flour was unchanged. The day's state crop report which showed a falling off of seven points in the condition of the crop during July, was not sufficient for the comparative figures manifested in the case of moving conditions. A slight movement was additional, but the market was unchanged.

Local receipts were 248 cars. The market was unchanged. CAMROSE.

Bulletin News Service.

In drilling for water on the property at the rear of the Camrose Hotel, a fine seam of coal was struck at a depth of about 250 feet.

The operators claim they drilled through two seams, about 3 and 7 feet each, and separated one from the other by only a few inches of clay.

This seam has been found at several other places in and out of town, and varying depths, sometimes only 50 feet below the surface.

It is believed that this locality is underlain with this most valuable mineral. The opening and operation of a coal mine in this town would, no doubt, be a paying investment, as the market would be practically unlimited.

The product could be shipped from here by rail, and as far as Winnipeg. If an expert and capitalist came along and offered to go into such a proposition, there is no doubt the citizens of Camrose would subscribe one-half of the capital for the enterprise.

Quite a number from this town journeyed to Havelock on Monday, to see the Methodist Church, on Sunday.

Rev. Dr. Daly, of Weyburn, led the service at both services. On Sunday evening a tea was given by the ladies of the town, and the proceeds of the sale of the tea were given to the school building, after which the crowd gathered in the church, when a good program of songs, recitation and speeches was rendered.

LOCALS.

The regular meeting of the W.C.T.U. will be held in the Sunday school of the Baptist church, Wednesday afternoon at 2.30 o'clock.

Jas. Inlander, a former tenant of Strathcona, struck a six foot seam of coal at a depth of 20 feet, in boring for a well. The coal is similar in quality to that of the Clover Bar district.

Mr. Inlander took out two tons.

A. B. Campbell, of Campbell & Co., tireless, successors to the Downing Milling Co., has been through the Edmonton district during the past week, and gives it as his opinion that with three weeks of good weather the harvest will be equally as good as in any previous year. The one essential is that the frost remain away for three weeks.

A garden party will be held this evening on the lawn of McLaughlin Methodist Church, under the auspices of the Women's Christian Temperance Union. Good music will follow the proceedings, and refreshments will be served. Should the weather be unfavorable the social time will be spent in the McLaughlin Methodist Church.

One of the attractions of the recent carnival to be held on the old base ball grounds, August 29-30, under the auspices of the Elks club of the city, includes Madame Wanda, with her troupe of educated dogs, who came from the Pacific to the Atlantic, as features of the greatest amusement resorts. They are the only troupe this breed which has ever been successfully trained, which is evidence of the madam's wonderful patience. They are not only wonderfully trained, but beautiful to behold. The troupe consists of the mother and ten puppies. Madame Wanda is training the little fellows of two months, more patience, and finding the work very interesting, the animals always being ready to display and practice the maneuvers she commanded them. They are also very jealous and mate on the same perfume on all of their tails, except, or there is a log row in the kennel.

AT THE BIJOU.

Last evening the Bijou theatre played a three-act comedy and a sentimental drama, which heartily applauded. The first number was "The Slave's Love," a beautiful hand-painted film representing a phase in the life of a noble of the time. The Negro drew admiration from all. Mr. John Hall's rendition of "When you know you're not forgotten by the girl you can't forget" was well received. Another favorite was a film representing the beautiful scenery of the wilder districts of Eastern Canada. Miss George Franklin and Miss Helen Wynn were received with a welch of applause at every appearance and were recalled time after time.

FIELD NATURALISTS' CLUB.

A public meeting has been called for Wednesday evening at 8.30 in Mackay avenue school, at which the nature lovers of the city will organize a Field Naturalists' Club, whose principal work will consist in studying the flora, insects, etc. of this district. To this end the club will take long tramps out into the country on Saturday afternoon, when specimens will be collected and studied. The workings of the club will be mainly planned upon that of the Ottawa Field Naturalists' Club, which is the largest society of its kind in America, and has had to organize its early men as Professor James Robertson, Dr. Fletcher, Professor Macdonald and his son, Mr. Hall, and members of the geological survey staff. These gentlemen lent their scientific knowledge freely to the work, and acted as leaders in the various sections of the weekly excursions, which are often followed by ladies at the Ottawa university, the collegeists and the city school children. Mr. Halkett, of Ottawa, who is in the city now for a few days, will address the meeting.

THE NUCLEUS FOR A MUSEUM

Andrew Halkett, Dominion Naturalist, Secures Specimens of Alberta Fish.

Mr. Andrew Halkett, the Dominion naturalist, who has been for some weeks collecting specimens of fish in Alberta lakes, spent his major part of yesterday at the meteorological station, where the numerous specimens he has obtained.

These include fish and insects, batrachians, small mammals and crustaceans. These have all been put in copper tanks containing a formalin solution which preserves them perfectly. The fish are simply strapped in cheese cloth and put in whole into the tank of formalin solution. The insect collections are then sorted and put in as per day, will address the meeting.

Nucleus of Provincial Museum. The greater part of the collection remains here in Alberta as a nucleus of a provincial museum. Duplicates of the specimens will be sent down in tanks to the Fisheries Museum at Ottawa.

The various kinds of fish found are pike, trout, white fish, suckers, sticklebacks and small cyprinids. A species of sucker that is new to the province has been found. Mr. Halkett was found anxious to have his specimens called the stone-lugger.

Mr. Halkett will address the public meeting, called for Wednesday evening, in Mackay avenue school, to establish a club of field naturalists here.

PROVINCIAL BACTERIOLOGIST.

Dr. J. H. McLeod, the recently appointed provincial bacteriologist, has arrived in the city to organize and conduct the laboratory of the Provincial Board of Health, which is in connection with the department of agriculture of the Alberta Government.

Since assuming his position on the medical faculty of the University of Chicago in June, Dr. McLeod has been visiting the public health laboratories in Toronto, Albany, Boston, New York, Detroit, and Minneapolis looking into the most advanced methods of their work.

Dr. McLeod has never been in the west before, and he is anxious to see the development of the country in general and is delighted with the appearance and development of Edmonton in particular. Mrs. McLeod and the children are visiting with their parents, Mr. and Mrs. Andrew Murray, in Almyer, Ontario. Dr. McLeod is at present the guest of Dr. and Mrs. Wells.

AT THE LYRIC THIS WEEK. The bill at the Lyric this week is most acceptable one. Last night there was a capacity house to attend with, and it was one of the most crowded for everyone knew that a good show was in prospect. Max Floyd Matthews sang a beautiful Irish ballad. His voice is an extremely sweet one. He is a mainly little fellow and there is a future for him. Richard Lawrence is an excellent player on the organ, and from the applause at Windsor Hotel, to feel his playing was appreciated.

Edith Clifford and Jack Robbins are proving very versatile in their duets. Their voices blend harmoniously.

John Campbell singing a song this week, and the slides for the pictures are very funny. The moving pictures are very good. The Lyric is delivering the goods.

CAME IN THREE DAYS. A shipload of goods, which left from Winnipeg on the morning of August 10th, arrived in Edmonton over the Canadian Northern on the morning of Sunday, August 11th, only three days on the line. Sust. Carey takes considerable pride in this.

John MacFarlane, an indication that the Canadian Northern is rapidly getting its line in good shape.

Have removed their Warehouses to No. 651 Namayo Avenue, corner of Griesbach and Namayo.
